Objective:

A dedicated and fast-learning DevOps enthusiast who recently completed a Bachelor's in Computer Applications. I'm eager to leverage my foundational skills in Linux, Cloud, containerization, CI/CD and IAC to contribute to innovative projects and grow as a professional in a dynamic team environment.

Technical Skills:

- **Operating Systems:** Linux, Windows
- **Version Control:** Git, GitHub, GitLab
- **Containerization:** Docker
- **Container Orchestration:** Kubernetes
- **CI/CD Tools:** Jenkins, GitLab CI/CD
- **IAC :** Terraform
- **Scripting:** Bash/Shell scripting
- **Cloud Knowledge:** AWS

Certifications:

- 🎩 Red Hat Certified System Administrator (RHCSA) (Certification ID : [250-011-970](250-011-970))

Education:

Qualification	Specialization	Board/University	Passing year
BCA	Bachelor of Computer Application	Shri chimanbhai patel institute of computer application	2022-2025
12th	Commerce	GSEB	2022

Academic Projects & Coursework:

FaceLog: Smart Attendance System

- Developed a cloud-based, face-recognition attendance system using Python, Django, and MySQL.
- Developed a basic CI/CD pipeline using GitHub and Jenkins for a sample web application. This project enhanced my understanding of version control integration and automation in deployment processes.

Additional Highlights:

- **Quick Learner:** Constantly upskilling through online courses of DevOps and cloud technologies.
- **Problem Solving:** Strong analytical skills to troubleshoot and optimize processes.
